

Table of Contents:

1. Project Description and Narrative

- Project Background
- River Corridor Standards Review comments
- Contact list of agencies, consultants, owners

2. Permit Application and Approval Correspondence Letters

- Conditional Use Permit Application
- Site Plan Approval Application
- Variance Application
- Minnesota Dept. Of Natural Resources-Natural Heritage Information
- Minnesota Dept. Of Natural Resources-wetlands and waterway impact
- Dept. Of the Army-Corp of Engineers-wetlands mitigation
- Minnesota Pollution Control Agency-NPDES/SDS Construction Stormwater Permit.
- Pending permit application update

3. Historical Remediation Information

- St. Paul Rail Yard Environmental Exhibit
- General Site Configuration
- Actual limits of excavation
- Aerial depiction of area

4. Project Construction Drawings and Calculations

- Title Sheet
- Typical sections and details
- Site Plan
- Fire hydrant water main plan
- Track plan and profile
- Turf Establishment/Erosion Control Plan
- Road plan and profile
- Cross sections
- Existing Conditions base map
- Soil cut and fill calculations/ Stormwater Management calculations (4 copies submitted separately)
- MnDot Mixture 250 seed specification
- Slope Analysis-pre & post-construction conditions

5. Wetlands Information-excerpt of separate permit application

- Site location Map
- Significant natural features map
- 2004 aerial photo
- Wetlands delineation map
- National wetlands inventory
- Ramsey County Soil Survey
- DNR Protected Waters
- Proposed railyard and wetlands impact area
- RWMWD buffer requirements
- Wetlands impact reduction layout-only single track crossing

6. Miscellaneous information and figures

- Project location map
- Project area map
- Area soil series map
- Remediation backfill soil specification

7. Marathon Emergency Response “One Plan”
